

Quick Setup Checklist

Use this checklist before your first move:

- Gather materials: paper and pencil (eraser recommended)
- Draw 2–5 starting dots (start with 3 for beginners)
- Decide who goes first (coin flip, rock-paper-scissors, etc.)
- Confirm all dots are clearly labeled (A, B, C...) if using notation
- Remind both players: no crossing lines, add a new dot every move, max 3 lines per dot
